First Selectman's Corner

Dear Willington Residents:

We hope this first edition of the Willington Events Magazine finds you well and enjoying all that summer in our small town has to offer. Perhaps you have already spent some days enjoying Hall's Pond, hiking a trail, taking in a concert at the River Road Athletic Complex or simply enjoying peace and quiet in your own backyard. If you haven't done these things yet, there is still plenty of time. It is our hope you will find additional ideas for how to enjoy the summer (and fall) in Willington in this publication.

July 1 is the start of the new 2016-17 fiscal year. I want to thank everyone who came out to participate in the budget process over the past several months and vote in the recent budget referendum. Our many boards and commissions, particularly the Board of Finance, worked hard to bring a budget to voters that kept a tax increase to a minimum while maintaining programs and services. While many compromises have been made in this process, I am pleased that our boards worked well together, focused on the bottom line and considered the impact each program and service has on our residents.

While many of our Boards and Commissions take the summer months off, our town employees, particularly Public Works, are very productive when the weather cooperates. The road crew is looking forward to the many projects ahead.

The Town Office Building is open 12:30-7:30 p.m. on Mondays and 9-2:00 p.m. on Tuesday-Friday.

Christina Beebe Mailhos

I try to be available during office hours or by appointment. Please stop in to share your budget ideas and concerns as we begin to plan farther into the future.

The Willington Historical Society

Work continued during the winter at the Glazier Tavern. The project completed was the plastering of the walls in the Taproom and Keeping room. This brought to completion the 3 year restoration of the fireplaces in both rooms. Pictures are posted on Facebook, check them out!

Next on the list of necessary work will be the replacement of the damaged picture window that faces the Town Green. Plans are to replace it with a traditional 6/6 window, more representative of the opening at the time the tavern was constructed. In addition, quotes are being gathered for replacing the roof on the main part of the building. Because of this substantial investment, the Society will be requesting donations to help finance the cost at approximately \$300 a square, or \$100 a bundle of shingles, installed.

BEHIND THE TAVERN ...

The Society is interested in soliciting the donation of an outhouse or as some might rather say, a privy. A one-holer is preferred, but we will consider up to a three hole model. There are a few still in the area, and if there's one not in use, please consider this request, in the name of history.

FEELING HANDY?

Consider helping at a Historical Society work day. The Society has

several projects planned for this summer and fall.

We are hoping to get started on designing an appropriate sign for the front yard. Additionally, we're prepping the side yard for a small field and rail fence. Wallpaper has been stripped on one wall in the Taproom, to uncover the historic features of that wall, and there are opportunities for data input involving several current projects. Interested? Contact us at our email address at the bottom of this column. We'll add you to our e-blast list of supporters and helpers.

If you're a little short on time, consider supporting the Society by becoming a member and/or as a donor. Don't forget that memberships also make thoughtful gifts for holidays, birthdays and anniversaries. Please be mindful that memberships and donations allow for continued restoration work at Willington's historic Glazier Tavern.

Thank you to everyone who has responded to our requests for historic items.

Contact the Willington Historical Society with general email at: WillingtonHistoricalSociety@gmail.com.

Membership forms are available at www.willingtonhistoricalsocietyct.org.

Donations may also be made through PayPal link on the homepage.

Tick Borne Illnesses In Connecticut

Summer is the time for picnics, hiking, outdoor concerts, and just relaxing in your back yard. It is also the time for ticks to come out and feed.

In Connecticut there are several illnesses caused by a tick bite. The common deer tick, *Ixodes scapularis*, can transmit Lyme disease, Human Granulocytic Anaplasmosis (Ehrlichiosis), and Babesiosis. Symptoms of these illnesses include fever, body aches, headaches, and in the case of Lyme disease an expanding red rash. Symptoms may begin from 3-30 days after the bite.

The American dog tick, *Dermacentor variabilis*, can transmit another illness

Rocky Mountain Spotted Fever. Symptoms include the sudden onset of fever, headache and muscle pains followed by a rash. These symptoms may appear 3-14 days after the tick bite.

All of these infections can be treated with antibiotics, but without prompt treatment they can cause serious or even fatal illness.

After spending time outside it is important to do thorough skin survey to find any ticks. The longer a tick remains attached the more likely it could transmit an illness. An infected deer tick can transmit one or even more illnesses at the same bite.

The Connecticut Agricultural Station estimates that about 25-30% of deer ticks are infected with Lyme disease. But not every tick bite will transmit the illness.

If you find a tick it is important to remove it promptly. Use tweezers and grasp the tick's mouthparts as close to the skin as possible. Using steady pressure, pull the tick upward. After removal wash the area with soap and water and apply an antiseptic. Write down the date it was removed. If you develop a rash at the bite site and/or symptoms of a flu like illness contact your physician immediately.

4H Grows Here

4-Hers across Connecticut will celebrate National 4-H Week during the week of October 2-8, 2016. 4-H, the nation's largest youth development organization, grows confident young people who are empowered for life through experiences that develop critical life skills.

4-H encourages diverse groups of youth to develop their skills and talents to the fullest potential. In 4-H, youth "learn by doing." Youth ages 7-19 can pursue their interests in a wide variety of "hands-on" programs areas: Environmental Education, Citizenship, Science and Technology, Communication and Expressive Arts, Workforce Preparation, and Leadership. Most importantly, 4-H is fun!

Youth can join 4-H through a local club, a special interest group, or through an after-school program. Each program is unique and often involves the whole family. The Willington Willing Workers is the local 4-H club. Club business meetings are held on the 4th Wednesday of each month, at 7:00 pm., at the Willington Hill Firehouse. Current projects include: beef, dog, horse, poultry, rabbits, expressive arts, and community service. For more information about 4-H in Willington, contact Jan Castle at (860) 429-1214 or jancastle@earthlink.net. For information about other Tolland County 4-H opportunities, call the Tolland County Extension Center at (860) 875-3331.

Applying for Home Solar PV Program

The Town of Willington, supported by a small group of local volunteers, is applying for inclusion in the Fall 2016 Solarize Connecticut program.

To be accepted we must demonstrate our commitment to informing the community about the benefits, feasibility and financial advantages of installing a solar photovoltaic system on their home or property. The more installations made within the program's area and time limits, the more economies of scale and cost benefits to purchasers there will be. We will be working with the Town of Eastford in this effort, to increase potential participation.

Keep your eyes and ears open for more announcements. And, we can always use more volunteer help from individuals or organizations as we go along.

Call the First Selectman's Office or email Pam Wheeler, pamw.iam@gmail.com, for more information. By late summer we will know if we have been accepted.

Take a Walk with Nature!

Summer is a great time to get out with family and friends for a walk on Willington's preserves and hiking trails. Stretch your legs, breathe fresh air, listen to birdsong, enjoy blooming wildflowers and look for animal signs.

Naturalist John Muir once wrote: "In every walk with nature one receives far more than he seeks."

Fenton-Ruby Park and Drobney Sanctuary offers 4 easy hiking trails that wind around beaver ponds, meadows and mature forests. Parking, picnic tables and trail maps are available at the corner of Moose Meadow Road and Burma Road. We also invite you to stroll on the Town's other preserves and trails located off Mason Road. From the new gravel parking lot on Mason Road (0.3 miles north of intersection with Rte 44) you can access the Knowlton Spur Trail and the Talmadge Spur Trail. Trail maps and preserve information are available at the trailheads. Both spur trails connect with the Blue-Blazed Nipmuck Trail to make a great 1.7 mile loop that can easily be walked in an hour. You also have the option of adding the 0.6 mile UConn Forest Loop trail (while you are on the Nipmuck Trail) for a refreshing walk through a cool, mature hemlock grove with access and scenic views of the Fenton River. Bring your fishing pole and try to catch a native brook trout in its sparkling waters.

Photo by Chris Demers

The Willington Conservation Commission meets monthly on the third Wednesday of each month at 7 p.m. at the Town Office Building, 40 Old Farms Road. The public is welcome. Residents interested in serving on the commission are encouraged to attend (several alternate positions are open). For more information about the Town's open space preserves, trails or other conservation issues, please contact Chairman Peter Andersen at 860-429-1276 or Vice Chairman Kathy Demers at 860-377-6416.

Preparing for a Hurricane

Hurricane readiness should begin long before the event occurs. If you live in a hurricane-prone area, you can prepare far in advance for the possible dangers to health and safety resulting from a hurricane by learning about your community's emergency plans, warning signals, evacuation routes, and locations of emergency shelters.

- identify potential home hazards that could develop during a hurricane, such as those involving gas, electricity, chemicals, and structural damage
- install a smoke detector
- buy a fire extinguisher
- conduct an evacuation drill for at least two ways out of your home
- provide escape ladders for multi-story structures
- establish an assembly point where the family meets in the event of fire or if a disaster occurs when the family is not together at home
- give your relatives and friends the name of a contact person who will know where you are and how you are doing
- know the location of your important papers, such as insurance policies, wills, licenses, stocks, etc.
- instruct family members about how to shut off the gas, water, and electric mains

- inform local authorities about any special needs, i.e., elderly or bedridden people, or anyone with a disability

You should stock your home with supplies that may be needed during the emergency period. These supplies should include:

- several clean containers for water
- a 3-5 day supply of non-perishable food
- a first aid kit and manual
- a battery-powered radio, flashlights, and extra batteries
- sleeping bags or extra blankets
- prescription medicines and special medical needs
- baby food and/or prepared formula, diapers, etc.
- disposable cleaning cloths, such as "baby wipes" for the whole family to use in case bathing facilities are not available
- alternate heat and cooking sources, such as a kerosene heater and a camp stove - use these only in well-ventilated areas
- shovels and hand tools
- candles and matches
- a mop, bucket, and towels
- one or more rolls of plastic sheeting, a staple gun with staples, and duct tape
- plastic trash bags and ties
- an emergency kit for your car with food, flares, booster cables, maps, tools, a first aid kit, fire extinguisher, sleeping bags, etc.
- a citizens band radio or a cellular phone, if possible
- extra cash
- pet food
- insect repellent
- rubber boots/rubber gloves

DURING THE STORM

To get through the storm in the safest possible manner:

- monitor the radio or television for weather conditions, if possible
- stay indoors until the authorities declare the storm is over
- do not go outside, even if the weather appears to have calmed -- the calm "eye" of the storm can pass quickly, leaving you outside when strong winds resume
- expect the loss of electricity, gas, and water
- stay away from all windows and exterior doors, seeking shelter in a bathroom or basement. Bathtubs can provide some shelter if you cover yourself with plywood or other materials
- prepare to evacuate to a shelter or to a neighbor's home if your home is damaged, or if you are instructed to do so by emergency personnel
- if you should lose electrical power, eat perishable food first.
